Director

"Everyone thinks of changing the world, but no one thinks of changing themselves."

We at APS, take pride in our motto-Learn, Lead and Inspire which helps in instilling love for learning among our students. Undeterred by the pandemic, the school left no stone unturned in facilitating the online teaching process and ensured that our children develop skills through digital modes that will help them to become more technology savvy and confident global citizens. We believe in shaping the powerful young minds. It is with this belief and faith that we endeavour to inculcate the values of empathy, responsibility, humility and the passion to fulfill their dreams in the children. This prospect of education as a way of life enables the students and teachers to equip themselves with skills and knowledge necessary to succeed in this 21st century. In this grave situation, we continue to move with an approach of instilling hope and confidence. Our journey of imparting education continues to be stellar by deploying an array of tools for students, parents and teachers so that all can be connected as a thread from one corner to another. To an extent we have been successful in reaching our students through Google Classrooms, Zoom App, Teams App, online portal and other social platforms. In response to the challenges faced during this year, the year in the true sense proved to be an year of achievement and accomplishments. Our talented students brought laurels to the school by securing good ranks in the prestigious JEE MAINS examination. Known for being focused, they have worked diligently and meticulously towards their goal and have made us extremely proud. Undoubtedly, the success would not have been of any worth without the support of our management, teachers, and students who at every step proved their commitment to learning.

NATIONAL YOUTH DAY

National YOUTH DAY

The philosophy of Swami Vivekananda continues to be a great source of inspiration to the youth of our nation. In order to offer our tribute to the great teacher, we celebrate National Youth Day on 12th January every year. He strived to promote the youth in the field of education, art, culture and hope to inculcate moral values that enlighten the inner soul. Keeping in mind his philosophy our smart children vividly recounted the problems faced by the youth through their thought provoking posters, electrifying essays and creative poems. They covered topics like unemployment, unhealthy eating habits and how social media is overpowering the youth by putting forth their point of view through their masterpieces. They also apprised everyone about the principles of Swami Vivekananda. We aspire to instill these values and qualities in the youngsters of today who carry the promise of building a new and better India tomorrow.

LOHRI

Happy
Lohri

The festival of lohri that ushered in the joyous spring and bid adieu to the hard winter, was celebrated virtually with pomp and show, wherein our lovely children made beautiful cards and laid their hands on creative craft work. Their astonishing outfits and graceful moves on punjabi folk music accentuated the funfilled celebration. The students and teachers also sang rich cultural folklores of punjab. The teachers also apprised the children about the relevance of the festival and enriched their knowledge. They also learnt to be thankful for god's provision. The mood was upbeat and the students were totally absorbed in the festive spirit of Lohri.

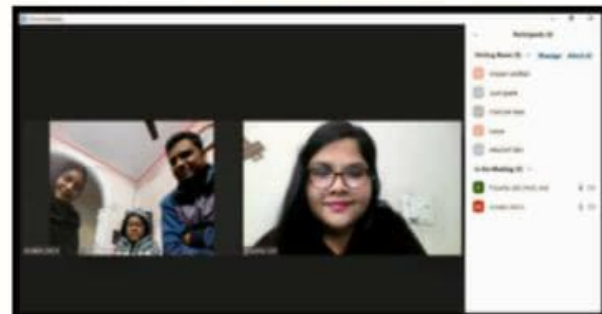

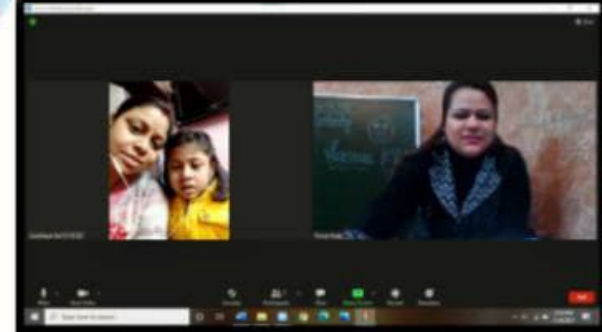

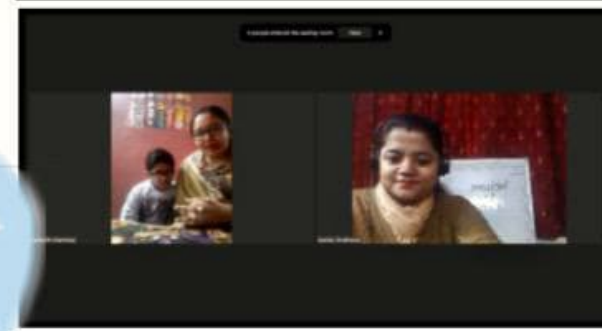

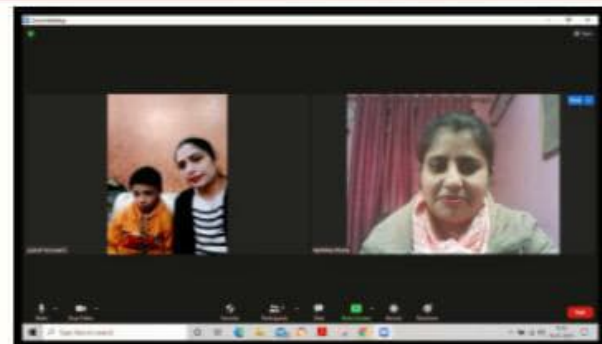

VIRTUAL PTM

Parent-teacher meetings play a significant role in enhancing a child's education. The union of the teacher's feedback and parent's concern are the two pillars that accelerate the child's growth. We ensured that our students learning as well as the feedback mechanism were efficient and effective even in these unprecedented times. Virtual PTM was conducted for grade Nursery-VIII with the intention to apprise the parents about the performance of their wards. This helped the parents and teachers to build a strong relationship to understand and determine the needs of their child. The Virtual PTM was akin to the face to face interaction and truly felt like that distance was mere a number. In this endeavour we thank our parents for their constant support and upliftment.

REPUBLIC DAY

*Happy
Republic Day*

At APS, we reaffirm our loyalty to our country, acknowledging the sacrifices made by our unsung heroes, and rededicate ourselves to build a stronger and better India—the India of our dreams. Our students paid tribute to the Father of Indian Constitution Dr. B.R Ambedkar, Sarojini Naidu and Maulana Azad, who worked tirelessly to give India its sovereign, democratic status as a republic. The ideals of Justice, Liberty, Equality and Fraternity were highlighted. Students tapped their feet on patriotic songs to showcase their love for the nation. The celebration felt complete after the unfurling of the national flag. The pride in the eyes of everyone was a sight to behold.

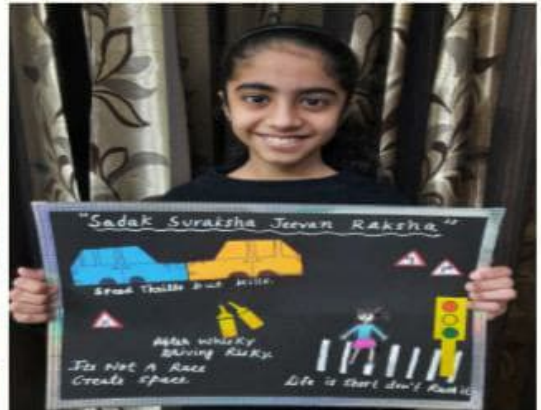

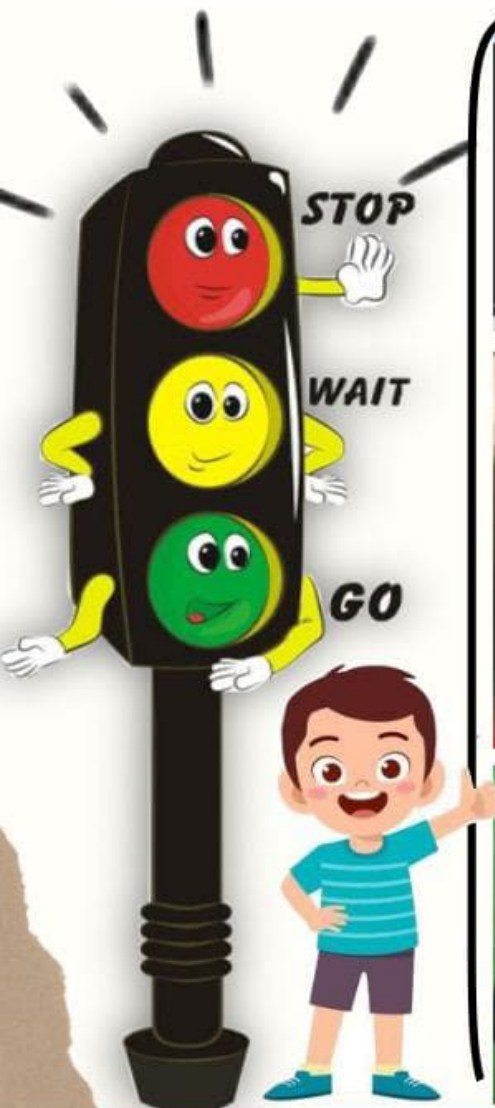

ROAD SAFETY

"Safety brings first aid to the uninjured."

The Ministry of Roads and Highways, Government of India, organised a month long 'National Road Safety Month' to sensitize children about the importance of following safety rules. The theme of this year was-'Sadak Suraksha Jeevan Raksha'. Our children celebrated Road Safety Month by committing to always follow safe road practices. They made enchanting posters and road signs to create awareness about road safety. Keeping in mind the importance for everyone to have traffic awareness and to follow the road safety rules with understanding and care, our brilliant students reiterated important safety rules via videos and PPTs. Children emphasized on how being disciplined and obeying rules lead to the ultimate key to self growth and taking the nation ahead. They participated with full enthusiasm and pledged to follow all the traffic rules.

VASANT PANCHAMI

We witnessed a very colourful and a vibrant virtual Vasant Panchami celebration this year. The children graced the occasion by dressing in radiant shades of yellow, which is both the vibrant colour of Spring as well as auspiciously associated with Goddess Saraswati, the epitome of knowledge. The spring of joy took over when the prayer ceremony worshipping Goddess Saraswati was led by offerings of flowers and 'prashad'. Colourful kites and yellow sunflowers were the little masterpieces created by our kids. The students

were also apprised about the significance of this day. Saraswati Poojan indeed created a pious aura in the virtual classroom.

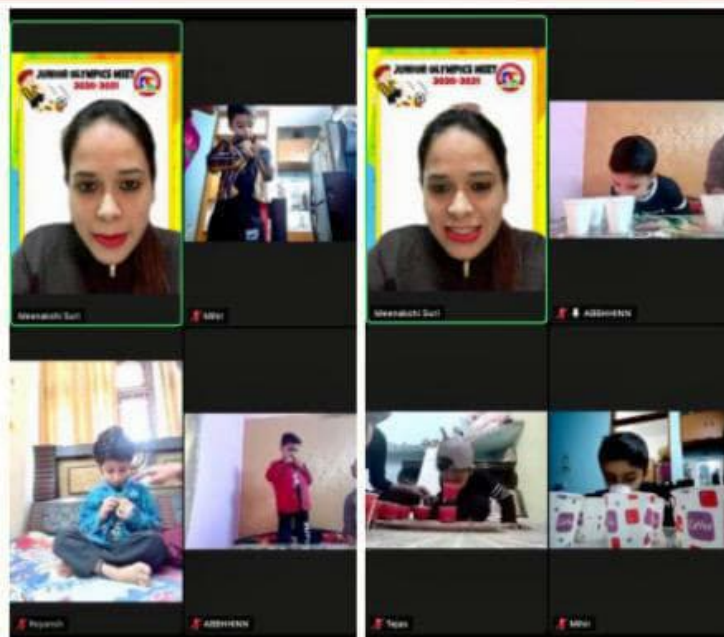

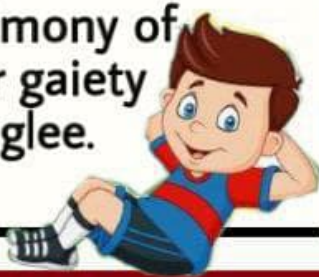

JUNIOR OLYMPICS MEET

JUNIOR OLYMPICS MEET 2021

Education is where knowledge and health meet. With this noble aim a Virtual Junior Olympics Meet was organized for the students of Grade Nursery - II. The event was entailed by fun filled games wherein the students participated with full verve and vigour. Their enthusiasm was boundless when they were engrossed in innovative games like bangle sorting, Buck it Up, Blow the balloons, Princess of Persia, Button Up, Tap Your Feet etc. The teamwork of parents and students was truly eminent and their aspiration to win created a frolicsome atmosphere. The winners were felicitated with certificates and cheered inordinately for their exceptional performance. Their wide smiles were the testimony of their gaiety and glee.

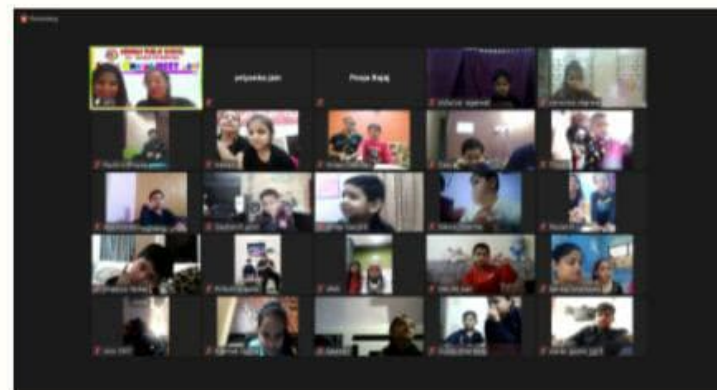

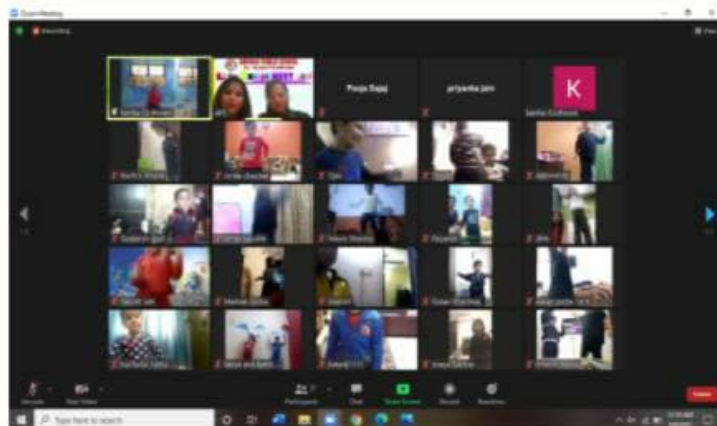

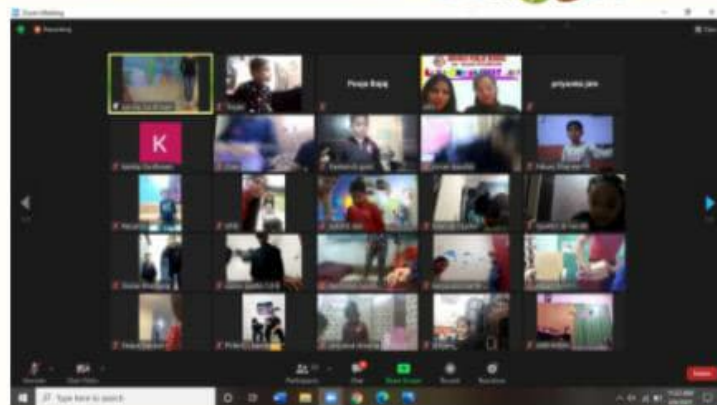

LITTLE CHAMPS MEET

We organised 'Little Champs Meet' for the students of age group 3 - 5 years on 6 March, 2021. This initiative was taken to refresh the children and strengthen the eternal bond between them and their parents. Owing to an array of fun filled games which concurrently ignited the motor skills, provided amusement and rejuvenated everyone. Children and parents passionately participated in the games like Jump O'Clock, Spongy Fills, Fun With Bun, Chase the Color etc. The response was massive and the judges had a hard time choosing the winners. The spectacular coordination and teamwork was indeed a sight to behold.

INTERNATIONAL WOMEN'S DAY

International Women's Day is observed on 8 March every year. It is a celebration for all the women, our heroes who are extraordinary achievers in all that they do. Women have been at the forefront of the battle against COVID-19 and have truly testified that not all superheroes wear capes. The goal of education is to help children of all ages and genders to find inspiration and courage from the diverse women. On this special occasion Delhi Police, North West organised an interaction with school students. This event was conducted via video conferencing and ensured the dividing of empowerment for all women across socio-economic culture. It taught children to actively question and openly challenge the stereotypes and bias which will help them to forge a more inclusive world.

INTERNATIONAL
WOMEN'S DAY

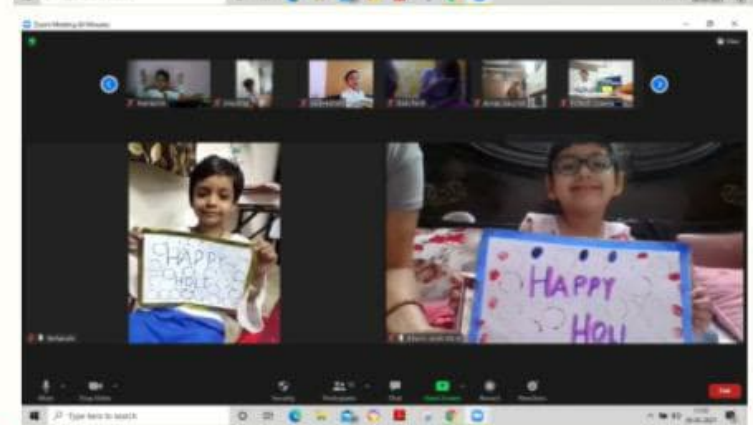

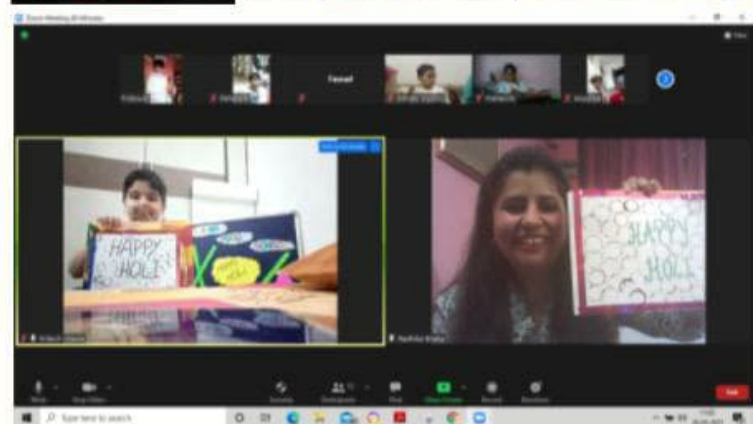

HOLI CELEBRATION

A day full of colours!
A day full of excitement!
A day full of wishes!
A day to rejoice love!

Holi the festival of colours, is one of the most important festivals of India and is celebrated with great pomp and fervour. A day before Holi, Holika is burnt to remove negativity and bring the colours of positivity into our lives. The dominant idea behind Holi is to spread the message of harmony. To celebrate this festival, children were enlightened about the importance of Holi and the safety measures required while playing Holi. The young stars of the primary wing celebrated Holi in their own unique way by making Holi posters using bottle caps. Their gleaming white clothes and colourful posters enthralled everyone.

HANDS-ON LEARNING

LEARNING

Students learn better when they experience what they are learning so hands-on learning and training techniques are an integral part of our academic program. We aim to incorporate hands-on learning for each concept. Children not only enjoy learning but are able to retain it better. It allows students to experiment with trial and error, learn from their mistakes, and understand the potential gaps and find ways to improve them. Incorporating progressive teaching and learning methodologies is imperative in such dynamic times.

STAR OF THE MONTH

The bond between a mother and a child is incomparable. This bond begins when a child is born and continues for the rest of the life. The belief that parents support their children in any situation helps them to trust and believe in their abilities. Teachers and parents together give children the roots to grow and the wings to fly. When parents, teachers and children work towards common goals miracles happen. With continued efforts and diligence, the performance of our children improved substantially with each passing day and they bagged the title of the 'Star of the Month'. Kudos to all the parents for their unremitting support and hard work they put in for their children.

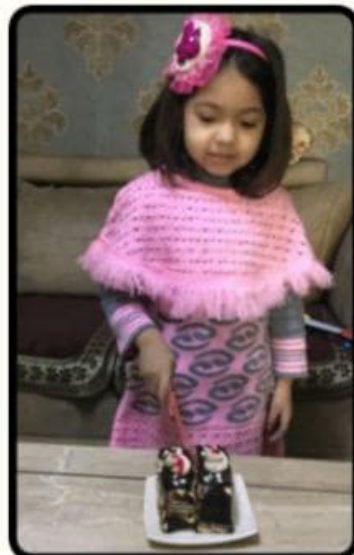

BIRTHDAY CELEBRATION

We believe that birthdays are special and it's an important milestone for children that helps them to connect and enjoy with their peers, teachers and parents when they physically cannot come together. When children feel celebrated, they grow a higher level of self-worth. Keeping this notion in mind a virtual dance party was organised in which our tiny tots swayed merrily to the foot tapping music. Virtual cake cutting was also an important part of this unique birthday celebration. Their wide smile testified their happiness.

SCIENCE ADVENTURES

It's time to wave goodbye to traditional ways of learning as the modern era has brought about many changes in the lives of people. Consequently, rote and conventional methods have become obsolete and new and improved ways of learning have emerged to connect theories and knowledge learned in the classroom to real-world situations. To keep science classes upbeat and exciting experiments like creation of fossil fuels, string phones etc were conducted in the classes. The keenness to learn and the enthusiasm to perform experiments was visible on their faces. It promoted the development of scientific thinking in students. Rather than making the kids memorize the facts, they were made to think and understand things and the world around them.

ARTICLES

DREAM

Dreams are our imagination,
The fantastic fascination,
They let you fly
Up high in the sky.

Hovering in my rocket
Staring at the stars
Dreams make me an astronaut
Looking for a planet.

Dreams make me superhero,
Rescuing everyone.
They let me be anyone I imagine,
Superwoman, Batgirl or Wonder woman.

Dreams let me be a soldier,
Full of bravery and courage,
Standing tall on the border
Saving the country with heart full of daring.

Dreams are our imagination,
The fantastic fascination.

CLEANLINESS

- NITHYA VC

"Cleanliness is next to godliness". We need to maintain and keep our environment clean and green. Plants should be grown around the house to produce clean air. Keeping ourselves and our surroundings clean, will keep us healthy. We should not throw the waste on the road, or in the rivers etc. We should throw the waste products only in the dustbin. Usage of plastic bags certainly harm our environment and also cause pollution. It would be best if we extend the lesson of cleanliness towards public places too. It is the duty of every citizen to keep their country clean. In other words

'SWACHH BHARAT SUNDAR BHARAT'
